## Front End React Developer

✉ alirazaarif995@gmail.com ☎ 03442012984 📍 House No R-53 Gulistaan-e-Malir 15 Karachi, Pakistan  
📅 08/12/1999 🏠 Pakitani in <https://www.linkedin.com/in/ali-raza-00321320b>

### Profile

---

I am an experienced React JS developer with a strong background in developing dynamic web applications using modern front-end technologies such as Typescript, Ant Design Bootstrap, Tailwind CSS, SCSS, Framer Motion, and media queries. I excel in designing and building responsive, cross-browser compatible user interfaces that are both visually stunning and highly functional. With experience in converting Figma designs into React JS components, I possess the skills needed to turn your vision into a beautiful and performant web application.

### Education

---

**Bachelors in Software Engineering,** *Univeristy Of Karachi*

### Skills

---

#### HTML CSS JS

Media Queires, Flexbox && Grid  
Taiwind Css, Bootstrap, SCSS,  
Web Animations,

#### React

JavaScript && Typescript  
Ant Design, Framer Motion

### Professional Experience

---

#### Front End Developer ( US Based Company )

##### Role:

As a React JS developer, I have been responsible for developing and implementing web applications using React JS and related technologies. My role involves collaborating with cross-functional teams, including designers, to translate design concepts into fully functional user interfaces. I have actively participated in the entire development lifecycle, from requirements gathering to deployment and maintenance.

##### Achievements:

- Successfully implemented complex user interfaces: I have designed and developed intricate user interfaces using React JS, showcasing my ability to handle challenging UI requirements. By leveraging my skills in Ant Design Bootstrap, Tailwind CSS, SCSS, and media queries, I have created responsive and visually appealing interfaces that enhance user experience.
- Figma to React conversions: I have demonstrated proficiency in converting Figma designs into reusable React clean and reusable components
- Through the use of optimization techniques and best practices, such as code splitting and lazy loading, I have significantly improved the performance of React JS applications. By optimizing rendering, reducing load times, and enhancing overall user experience

#### React Develop ( Intern At Tixsee Labs LLC )

As an intern React JS developer at Tixsee Labs LLC, my role involved actively participating in the development and implementation of web applications using React JS and related technologies. I worked closely with senior developers and team members to gain practical experience and contribute to the ongoing projects within the company
